

## List of Retail Pharmacies Contracted with BCBSAZ for 90 day supply benefit

2/28/12

Most BCBSAZ benefit plans that have a retail and mail order pharmacy benefit do not permit members to get a 90-day supply of medication at a retail pharmacy. Members who need a 90-day supply must obtain the medication from the in-network mail order pharmacy.

Some customized large- group benefit plans do have a retail pharmacy benefit that allows the member to obtain up to a 90 day supply of **maintenance** medications through a retail pharmacy. Plans vary and most plans do not include this benefit. More information is available at: <http://www.azblue.com/pdfs/medications/pharmacy/mailorder.pdf>

The list below shows retail pharmacies currently contracted with BCBSAZ to provide up to a 90 day supply of **maintenance** medications for members in plans that include this benefit.

For all members seeking a 90-day supply of medication, it is important to remember the following:

1. Your provider must first give you a prescription for a 90-day supply rather than refillable 30 day supplies.
2. Based on BCBSAZ pharmacy guidelines, 90-day supplies are available only for maintenance medications. BCBSAZ determines which medications qualify for maintenance medication coverage and this can change at any time.
3. Benefit plan limitations, exclusions and other factors determine if coverage is available for any specific medication.

If you have questions about your prescription medication benefits, please refer to your benefit plan booklet and benefit schedule page. You may also call (602) 864-4273 or (800) 232-2345, ext. 4273
